

RELEASE NOTES

Ardor — 15 August 2026

This release introduces improved billing transparency with credit grant tracking, a modernized usage dashboard, a new Plans tab, and refinements to artifact publishing and solution tool routing.

USER IMPACT

Users gain better visibility into their billing and usage through a modernized dashboard and credit tracking, while artifact sharing is now streamlined under a new 'Publish' workflow.

Change period: 2026-08-12 — present

CHANGE

Artifact Publishing & Preview Updates

Simplified artifact previews and updated sharing terminology to 'Publish'.

WHAT THIS MEANS

Artifact previews are now more consistent across environments. To make sharing clearer, the sharing action has been renamed to 'Publish' and accompanied by new icons.

How to use it

Look for the artifact preview window in your chat; you will now see the 'Publish' action and updated icons for sharing.

ADDITIONAL CHANGES

Other changes

CHANGE

Improved Solution Tool Routing

Improved routing for environment-specific tools within solution tiles.

WHAT THIS MEANS

When opening tools from solution tiles, Ardor now routes you directly to the correct tool path for your selected or default environment, replacing the generic browser view.

How to use it

Open a solution tile and click on the tool links in the title area to go directly to the environment-specific tool.

CHANGE

Credit Grant Tracking

Added credit and grant tracking to billing settings.

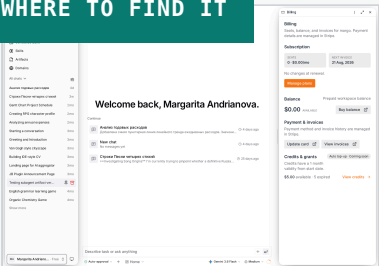

WHAT THIS MEANS

You can now track your financial grants more easily by viewing available and expired credit grants directly in your billing settings.

How to use it

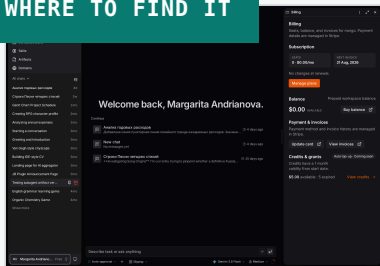

Navigate to Billing settings to see the new Credit Grants section detailing available and expired credits.

CHANGE

Modernized Usage Monitoring

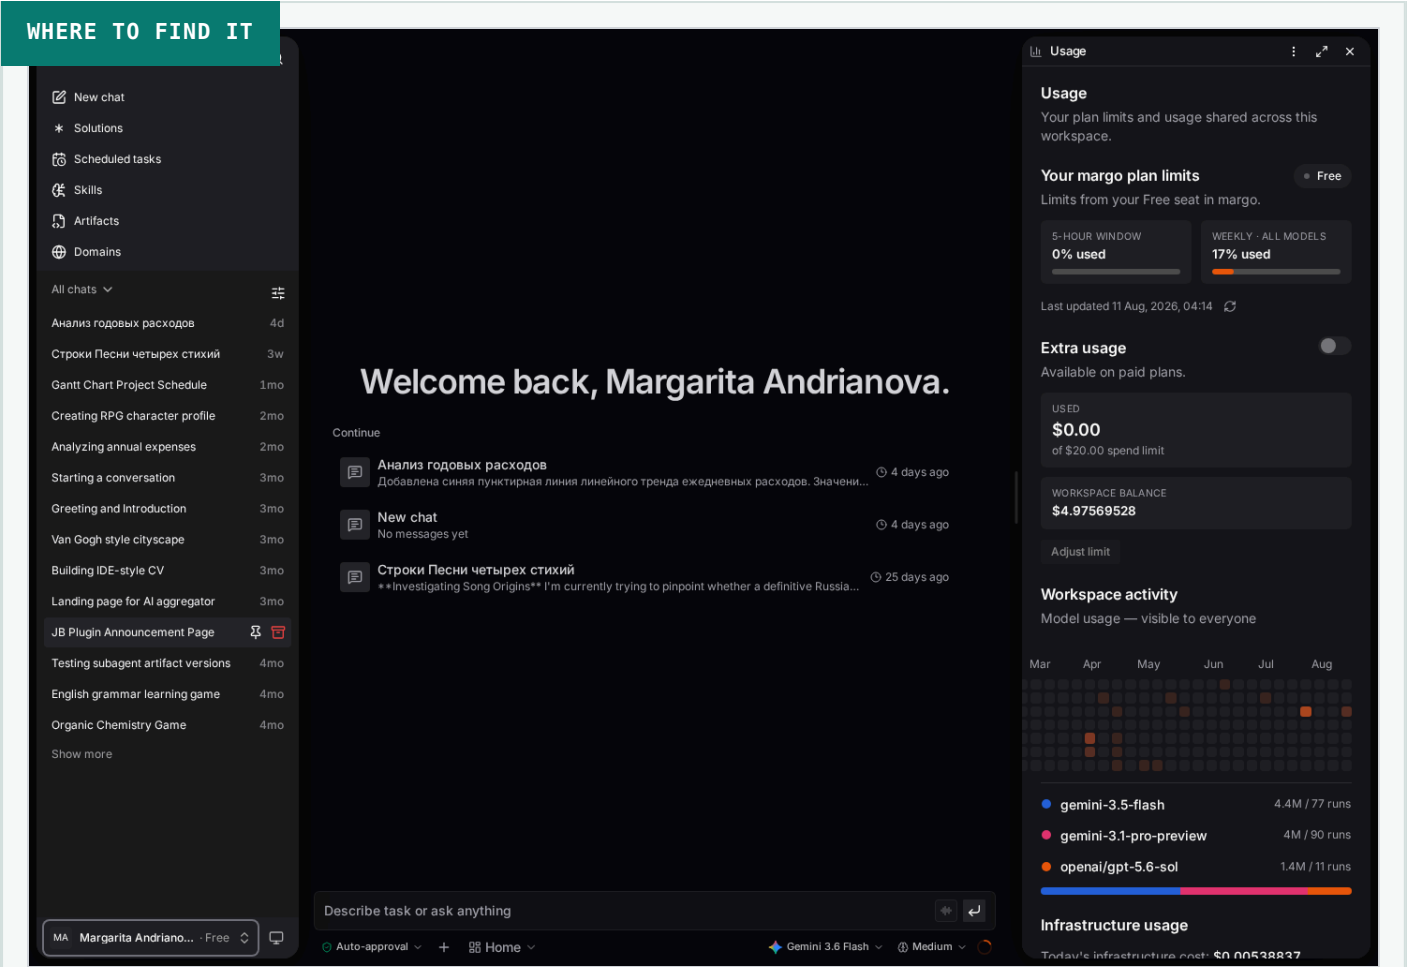

Modernized usage and infrastructure monitoring UI.

WHAT THIS MEANS

The workspace usage overview is now more compact and readable. Infrastructure costs are more accessible through a new responsive detail view, and billing limits are easier to monitor.

How to use it

Go to Settings > Usage to view the updated workspace activity and infrastructure cost details.

Modernized Usage and Infrastructure UI

CHANGE

Billing Plans Tab

Added a dedicated Plans tab to billing settings.

WHAT THIS MEANS

A new Plans tab has been added to billing settings for both accounts and workspaces, making it easier to manage and review your current subscription level.

How to use it

Navigate to Billing settings in either your account or workspace settings to access the new Plans tab.

NEXT STEP

Open the product and try the updated workflow.
